

# Hogwarts Institute — Placement Policy

Synthetic Demonstration Data | CampusAssist Capstone

## Purpose

Defines the general campus placement process and responsibilities at the fictional Hogwarts Institute.

## Placement Process

The process consists of student registration, eligibility verification, company-specific registration, selection activities, and offer reporting. Students must follow published deadlines and instructions.

## Student Responsibilities

Students must provide accurate academic and contact information, review eligibility before applying, attend scheduled selection activities, and report confirmed offers to the Placement Office.

## Placement Office Responsibilities

The Placement Office publishes information, communicates company requirements, supports registration, maintains placement records, and handles questions requiring official clarification.

## Company-Specific Requirements

Companies may impose additional requirements such as GPA, graduation year, skills, location, or role-specific criteria. General institute eligibility does not guarantee eligibility for every company.

## Application and Selection

Students may apply only to opportunities for which they meet stated requirements. Selection decisions are made by the recruiting organisation.

## Information Accuracy

Students should use the latest official placement information. Questions involving exceptions or undocumented rules require official clarification.

## Placement Support

Questions that cannot be answered from approved placement documents may be escalated through the Support & Escalation Policy.

## Important Limitation

Fictional synthetic data created solely for the CampusAssist capstone; not a real institutional policy.
