

# Hogwarts Institute — Internship Guidelines

Synthetic Demonstration Data | CampusAssist Capstone

## Internship Overview

Students undertaking internships should follow the institute's internship registration and approval process before beginning an internship where approval is required.

## Eligibility

Eligibility depends on programme requirements and the conditions communicated for the relevant internship. This document does not establish one GPA requirement for every internship.

## Registration

Students should submit required internship information, including host organisation, internship period, role or work description, and other requested documents.

## Approval

Where approval is required, students should obtain it through the designated process before treating an internship as officially approved.

## Completion

Students may be required to submit completion evidence, a report, evaluation, or other documentation specified by the relevant process.

## Exceptions

Special cases or exceptions are not defined here and should be reviewed by the appropriate authority.

## Privacy

Students should share only information required for internship processing and avoid unnecessary personal or confidential information.

## Important Limitation

Fictional synthetic data created solely for the CampusAssist capstone; not real internship rules.
